Lagos, Nigeria – 18 June 2026

DEAP CAPITAL COMPLETES TRANSITION TO CRITICAL MINERALS FINANCING CORP. PLC (CMFC PLC), RELOCATES HEADQUARTERS TO VICTORIA ISLAND

This is to notify Nigerian Exchange Limited and the investing public that Deap Capital Management & Trust Plc has formally completed its corporate name change to Critical Minerals Financing Corp. Plc ("CMFC Plc" or the "Company") following receipt of all requisite regulatory approvals and filings, marking a significant milestone in the Company's strategic evolution into a specialized mining, metals, commodities finance, and investment platform.

The Company has also relocated its corporate headquarters to **Number One Lagos, 1 Akin Adesola Street, Victoria Island, Lagos**, positioning CMFC Plc at the centre of Nigeria's financial and commercial ecosystem as it expands its activities across the mining and critical minerals value chain.

The transition reflects CMFC Plc's sharpened focus on capital structuring, investment banking, transaction advisory, project development support, and financing solutions for stakeholders across the minerals and commodities sector.

Commenting on the development, the Chairman of CMFC Plc, **Mr. Lamon Rutten**, stated:

"The completion of our transition to Critical Minerals Financing Corp. Plc marks the beginning of an exciting new phase for the Company. We are strategically positioned to deliver world-class capital structuring, advisory, and financing solutions to mining and metals companies operating across gold, copper, cobalt, lithium, tungsten, tin, tantalum, and other critical mineral sectors."

Mr. Rutten noted that CMFC Plc's strategy is focused on addressing the significant financing and transaction-structuring gap within Africa's mining industry by combining global financial expertise, sector-specific knowledge, and strategic partnerships.

CMFC Plc intends to work closely with mining companies, commodity traders, institutional investors, development finance institutions, governments, and international partners to unlock value across the minerals ecosystem while supporting industrial development, beneficiation, and export growth.

The Company is currently strengthening its governance, operational, and financial frameworks in preparation for its next phase of growth, which will include strategic partnerships, regional expansion, and participation in large-scale mining and commodities transactions across Africa.

Against the backdrop of rising global demand for critical minerals driven by energy transition technologies, battery manufacturing, advanced industrial applications, and renewable energy infrastructure, CMFC Plc believes Africa is uniquely positioned to become a leading supplier of strategic mineral resources to the world.
